

06 Make up 6 Trio LED Mirror light

Coming from the Art Deco period, this form shows classical restraint and cool distance. You can choose your colour combination for the white frosted glass tube and metal accessory.

Double flush-mounted lights. A flattering, first-class make-up light. The poseable LED tube provides the best illumination thanks to its distance from the mirror. This mirror was developed as a vanity mirror for TV make-up artists. These lights are pluggable, so they can be serviced any time.

Package contents:

Lamp complete with LED bulbs and power supply.

Technical specifications: **IP20**  **CE**

Material:	Brass
